---

The safety of Bethlehem Township staff, volunteers, members and community is a top priority and the Township of Bethlehem is taking appropriate action to limit the spread of coronavirus (COVID-19). Following directives from The Board of Commissioners and the federal Centers for Disease Control and Prevention (CDC) to limit public gatherings, Bethlehem Township Community Center will be closing and canceling all events and programs as of 5pm on Friday, March 13, 2020 until at least Monday, March 30, 2020.

Participants who registered for programs that required a fee between March 13th and March 31st will be credited.

Members of the facility will be issued an extension onto their membership for the time the facility is closed.

This is a very fluid situation that the Township of Bethlehem will continue to monitor. We will make adjustments accordingly.

The CDC, Pennsylvania Department of Health, and County Health Offices are your best source of information about the virus.
