

AQUATIC PROGRAMS

SWIM SCHOOL OPEN HOUSE FREE INTRODUCTORY CLASSES AT THE BETHLEHEM TOWNSHIP COMMUNITY CENTER

Swim Lessons are an important life skill and teaching children to swim is the most proactive measure a parent/guardian can take toward child safety in and around the water. It is also reported that children that take swim lessons at a younger age have a greater swimming ability than those that start later in life. The Aquatics Department offers swim lessons to children and adults of all ages and abilities. Please take this opportunity to bring your child(ren) to try out a swim class at no cost. Our instructors will teach, demonstrate, and evaluate all participants. Our instructors will also communicate to the parents/guardians as to which class is best suited, if the decision is made to enroll in our Learn-to-Swim Program. Below is the schedule for all introductory classes, no need to sign up, just show up with a suit and towel. This is a great opportunity to get your children in the water. Please call the Aquatics Department at 610-332-1842 with questions. Our next five week session of swim lessons will begin January 14th. Please check our website for swim class scheduling: www.bethlehetownship.org/btcc

Monday, January 7th

Flick N' Float

Come join us on Friday, December 18, 2009 for a night of swimming, hanging out, and floating on the inner tubes with friends. Did we mention that we would be showing a movie pool side? Lie in your inner tube and look up at the wall to watch the movie on the big screen. This is a great family activity. The BTCC will provide inner tubes; participants are also welcome to bring their own inner tubes.

7:00pm-9:30pm

Program #: 450772.02
