

Community Center Director Report – September 13, 2021

The Bethlehem Township Community Center (BTCC) officially closed its doors to summer 2021! It may not have been a typical BTCC summer, but we were happy to have the camps and outdoor pool back for the season.

Fall program sessions are making a return to the facility and will begin the week of September 20th. Recreation, fitness, children's programming, as well as many FUN activities are offered for all ages of Township residents. We also welcome back to BTCC our senior group, Autumn Club, as they were on a break since the closure in March 2019. The Kids Club will also re-open this month for families looking for childcare while utilizing the facility.

Below are a few of the programs returning this Fall:

Waterbabies & Private Swim Classes
Aqua Exercise Classes
Amazing Athletes
Tennis Programming for Youth and Adults
Painting Classes
Preschool Programs

As staffing continues to be of concern, we will slowly add the classes to the schedule, providing more when possible. As always, we will continue to monitor the attendance and daily operations within the center, making any necessary adjustments to our procedures and program/amenity offerings. I am readily available to answer any specific questions you may have regarding the facility, memberships or the programs/classes.

Community Center Director
Jackie Bittel
